PROFESSIONAL SUMMARY

CS graduate and Software Developer experienced in Frontend Development, Backend Development and Cross-Platform Mobile Development.

EXPERIENCE

Software Developer

Lynk Me

Jan 2023 – Present

Remote, Trinidad and Tobago

- Currently working as a Software Developer at Lynk Me, a local startup.
- React is used on the Frontend, and the Backend is handled using JavaScript and Python
- Created a progressive web-app for a client that allows their employees to quickly search for customers and upload any necessary documents via their mobile devices

Flutter Developer

DexterHut

Aug 2021 – Nov 2021

Remote

- Worked as a developer, during an internship for a remote company, tasked with creating a task management solution similar to Trello and Quire.
- Focused on creating the mobile app using Flutter.
- Designed and implemented a portion of the REST API and the database. The API was built using ExpressJS and the database was built with MongoDB.
- Features implemented included Authentication, Authorization, API routing and Database Storage.

Tier 1 Technical Support

Digicel Ltd.

Jan 2019 – Aug 2020

Port of Spain, Trinidad and Tobago

- Worked as a Technical Support agent for a local ISP.
- Interacted with customers on a daily basis over the phone, in order to resolve issues with their services.
- Troubleshoot issues with Internet, VOIP and IPTV services, all within a service window of 10 minutes.

Solutions Architect

National ICT Company Limited (iGovTT)

July 2018 – Aug 2018

Port of Spain, Trinidad and Tobago

- Worked as an Intern for the Solutions Architect Office
- Collaborated with 3 other employees to design and create the website for the National ICT Symposium 2018.
- The website was built using Wordpress.

Help Desk Technician

Central Bank of Trinidad and Tobago

June 2016 – Aug 2016

Port of Spain, Trinidad and Tobago

- Worked as a Help Desk Technician for employees within the company

- This task required constant interaction with employees in various positions, along with understanding and finding solutions to their issues.
- Regular maintenance was also performed on company desktop computers
